

Recently JobStart had the opportunity to connect with caseworkers at the new Lawrence Heights ODSP office during their meet and greet.

Staff from our disability programs work closely with these caseworks to ensure our clients are receiving the best possible services. We were able to showcase our employment supports, answer questions and distribute resources to the caseworkers in attendance; ensuring thousands of clients across the city are aware of how JobStart can help support their employment objectives.

If you're an agency serving clients with disabilities, and would like our program staff to conduct information at your location, or a person with a disability in need of support, reach out to **Jonathan John** at j.john@jobstartworks.org or **416-253-2729 x5745**

Jonathan chats with an ODSP Caseworker about programs and services available at JobStart for persons with disabilities (including ODSP recipients).

JobStart staff with ODSP Program Managers.
